

September 21, 2025: Donald Trump & Elon Musk - get out of our home and our life.

Donald Trump and Elon Musk: You are adamantly ensuring that I cannot live any moment of my life free from your overlord spy campaign to stir us into over-extensions while you both sit back and reap the rewards of your evil plot to enslave humanity to your sinful minds and eyes.

I am advising you that I am still filing a lawsuit against you both and I am alerting you to the fact that I will be seeking justice from a court of law against the both of you for participating in this criminal operation of extortion, threat, and intimidation in our home.

Leave our home, stop driving your criminals past our house, and stop following us around with your 'sign language' threats everywhere that we go.

Law enforcement: Elon Musk is the all-seeing eye that facilitates Donald Trump's illegal spying operation. I am confidently asserting that both of them are involved in a joint operation to extort the world as a demonic presence over us.

Please investigate them both for their criminal operation and arrest them - our world needs justice.

Donald and Elon: you have ruined your selves. Threatening me does nothing to redeem your own ruined reputations.
